Notice under Section 177AE (4) (a) of the Planning and Development Act 2000 as amended (as inserted by Section 57 the Planning and Development (Amendment) Act 2010).

Kildare County Council Moone Bridge Remediation Works

Dear Sir,

Kildare County Council (“the road authority”) has applied under Section 177AE (4) (a) of the Planning and Development Act 2000 as amended (as inserted by Section 57 the Planning and Development (Amendment) Act 2010) to An Bord Pleanála (“the Board”) for approval in relation to proposed maintenance and remediation works on Moone Bridge, Co. Kildare.

Kildare County Council has submitted to the Board a Natura Impact Statement in respect of the proposed development.

Moone Bridge carries the L8102 local road over the Timolin stream, between the village of Moone and Timolin, Co Kildare. The Timolin stream is a tributary of the River Greese. The Greese River is connected to the River Barrow and the associated River Barrow and River Nore SAC (site code 002162). The SAC is c. 15.6km downstream of the Moone bridge. Due to the hydrological connection, there is a potential pathway for impact to affect downstream aquatic features of interest for which the SAC is designated.

Moone Bridge is a single span masonry arch structure. The bridge spans a length of 2.5m in total with a maximum width of 6.15m. The arch facing walls, parapets and spandrels are rubble and square cut limestone while the arch barrel is made up of rubble masonry.

The works will consist of

- Replacement of soft grass verges with concrete rubbing strips
- Installation of stainless-steel drainage integrated into concrete rubbing strip
- De-vegetation of parapet/spandrel walls and repointing of joints as a result
- Repair of missing/ damaged sections of the parapet wall and copping
- De-vegetation and Debris removal on embankments
- All loose friable mortar of the arch barrel to be raked and repointed.

Comhairle Contae Chill Dara Kildare County Council

- Installation of fencing
- Removal of material that has built up in the downstream riverbed.
- Installing reflective flexible bollards

A copy of the NIS and Project Particulars (including the EIA Screening) will be available for inspection and downloading from the following link from **9th March, 2022 (inclusive)**:

The consultation website of Kildare County Council at

- <https://consult.kildarecoco.ie/en/consultation/proposed-remediation-works-moone-bridge-co-kildare-section-177ae-planning-application>
- and www.gov.ie/en/consultations/

Hard copies upon request are available from Kildare County Council, Level 4, Aras Chill Dara, Naas, Co. Kildare by contacting 045-980200.

Submissions may be made in writing to **An Bord Pleanála, 64 Marlborough Street, Dublin 1, D01V902** before **25th April, 2022 (inclusive)** relating to;

- (i) the implications of the proposed development for proper planning and sustainable development in the area concerned,
- (ii) the likely effects on the environment of the proposed development, and
- (iii) the likely significant effects of the proposed development on a European site, if carried out.

Further information may be obtained from: Ms. Triona Casey, Kildare County Council, Aras Chill Dara, Devoy Park, Naas, Co. Kildare – Telephone: 087 342 6899 Email: tcasey@kildarecoco.ie

Yours sincerely,

Notice under Section 177AE (4) (a) of the Planning and Development Act 2000 as amended (as inserted by Section 57 the Planning and Development (Amendment) Act 2010).

Kildare County Council Moone Bridge Remediation Works

Dear Sir,

Kildare County Council ("the road authority") has applied under Section 177AE (4) (a) of the Planning and Development Act 2000 as amended (as inserted by Section 57 the Planning and Development (Amendment) Act 2010) to An Bord Pleanála ("the Board") for approval in relation to proposed maintenance and remediation works on Moone Bridge, Co. Kildare.

Kildare County Council has submitted to the Board a Natura Impact Statement in respect of the proposed development.

Moone Bridge carries the L8102 local road over the Timolin stream, between the village of Moone and Timolin, Co Kildare. The Timolin stream is a tributary of the River Greese. The Greese River is connected to the River Barrow and the associated River Barrow and River Nore SAC (site code 002162). The SAC is c. 15.6km downstream of the Moone bridge. Due to the hydrological connection, there is a potential pathway for impact to affect downstream aquatic features of interest for which the SAC is designated.

Moone Bridge is a single span masonry arch structure. The bridge spans a length of 2.5m in total with a maximum width of 6.15m. The arch facing walls, parapets and spandrels are rubble and square cut limestone while the arch barrel is made up of rubble masonry.

The works will consist of

- Replacement of soft grass verges with concrete rubbing strips
- Installation of stainless-steel drainage integrated into concrete rubbing strip
- De-vegetation of parapet/spandrel walls and repointing of joints as a result
- Repair of missing/ damaged sections of the parapet wall and coping
- De-vegetation and Debris removal on embankments
- All loose friable mortar of the arch barrel to be raked and repointed.
- Installation of fencing

Comhairle Contae Chill Dara
Kildare County Council

- Removal of material that has built up in the downstream riverbed.
- Installing reflective flexible bollards

A copy of the NIS and Project Particulars (including the EIA Screening) will be available for inspection and downloading from the following link from **9th March, 2022 (inclusive)**:

The consultation website of Kildare County Council at

- <https://consult.kildarecoco.ie/en/consultation/proposed-remediation-works-moone-bridge-co-kildare-section-177ae-planning-application>
- and www.gov.ie/en/consultations/

Hard copies upon request are available from Kildare County Council, Level 4, Aras Chill Dara, Naas, Co. Kildare by contacting 045-980200.

Submissions may be made in writing to **An Bord Pleanála, 64 Marlborough Street, Dublin 1, D01V902** before **25th April, 2022 (inclusive)** relating to;

- (i) the implications of the proposed development for proper planning and sustainable development in the area concerned,
- (ii) the likely effects on the environment of the proposed development, and
- (iii) the likely significant effects of the proposed development on a European site, if carried out.
