Line markings on the L2019 Beggars End Cross

The members considered the following motion in the name of Councillor Sammon
That the council install line markings on the L2019 Beggars End Cross to Kill.

The motion was proposed by Councillor Sammon, seconded by Councillor Brett

A report was received from the Roads, Transportation and Public Safety Department that the L2019 is a local road with limited road width. In line with the Traffic Signs Manual, it is not advisable to provide centre line markings along the narrow sections of road due to the potential to over-run the carriageway edge and associated maintenance issues. It is possible to provide road edge markings for this road but there is an approximate cost of €10,000 for this work.

Councillor Sammon informed the meeting that the main feeder roads onto the N7 towards Dublin is a shortcut that began during the extensive roadworks of the N7 several years ago. The road allowed users to bypass the N7 all along Naas South, Naas, Johnstown, and Kill; and to enter the N7 at Castlewarden, saving time and avoiding congestion. Although L2019 is not being used to the same extent since the completion of those roadworks, it is still the preferred route for many drivers heading to and from Dublin from a wide catchment area, including the Punchestown side of Naas, Eadestown, Twomilehouse and Ballymore Eustace.

The road has been resurfaced recently and councillor Sammon asked that in the wider spots and certainly road edge that markings be painted. There was a quote for €10,000 and was this something the members could explore in next year's budget.

Resolved on the proposal of Councillor Sammon seconded by Councillor Brett and agreed by the members that the report be noted.

Councillor Sammon informed the meeting that she was happy with the response that these signs will be put up in Ballymore Eustace, the request came from constituents living on the road and also from the time of the Kaleidoscope Festival at Russborough, the organisers actually putting up temporary signage on these roads in the lead up to the festival this year, so she hoped that the permanent road numbers are on it in time for next year's festival

Resolved on the proposal of Councillor Sammon seconded by Councillor Kelly and agreed by the members that the report be noted.

The members considered the following motion in the name of Councillor Clear

Amendments to signal timings

Kildare County Council

are not recommended in isolation as an area wide approach to improvements for vulnerable road users is required.

Cllr. Bill Clear stated that he was unhappy with the response and asked that the matter be taken back to traffic management to reconsider his request.

The members made the following points:
