Údar: Rathangan Tidy Towns

Stádas: Submitted

Aighneacht: Transport & Biodiversity

Comhairliúchán:

Draft Kildare County Development Plan 2023 - 2029

Bog of Allen, Peatway trails and National Peatlands Park concept

Caibidil: Volume 1 - chapters » 12 - Biodiversity & Green
Infrastructure

Ábhair: biodiversity

Our group is strongly in support of section 12.14.6.5: we would not be in favour of Bord na Móna leaving small pockets of preserved land that are disconnected from each other. This will not support our local biodiversity. Wildlife areas require extensive buffer zones and connection between each other.

Our group is backing the concept of a National Peatlands Park in the Bog of Allen as per submission KCC-C55-147

Our group is also supporting section 12.14.8.8 on peatway trails in Rathangan and Edenderry areas. These trails are very important from a local tourism development point of view (eco-tourism linked to Blueway), community well-being and from a biodiversity perspective to some extent.
