Housing

Ábhair: housing

That KCC should legislate for the inclusion of Tiny Homes in their various designs in their planning development. These tiny homes are very sustainable, energy efficient, non-intrusive, and indeed very much affordable to anyone who cannot afford an affordable house, as great examples can be seen all across the world from Australia to Japan USA, Canada, Europe (www.tinyhomes.ie, Living in a Tiny House <https://www.youtube.com/watch?v=ZJ7ZihueEe0>)
