15 - Development Management Standards

Caibidil: Volume 1 - chapters » 15 - Development Management Standards

15.7.2 Cycle Parking

The **Cycle Parking Standards** in **Table 0.5*** should

- Be noted as a minimum requirement to ensure the appropriate provision of cycling parking for new developments.
- Include provision of resident and visitor **cycle parking** for houses (and not just for apartments) to promote cycling to new residential developments.

* **Table 0.5** should probably be re-labelled as **Table 15.5** (similar applies to other tables in this chapter)
