Part 12 Biodiversity & Green Infrastructure

**p38:** We commend Kildare County Council's wish to regenerate old routes on water and land for recreation use – another way to encourage locals and visitors biking, boating and walking to explore the Kildare countryside and its attractions.

It is encouraging that KCC recognise the opportunities presented by the ceasing of commercial activities and the re-wetting of the Bogs to reduce carbon emissions for not just the Planet, but also for People.

This is an opportunity to introduce eco-friendly living on canals.
