## Litir Chumhdaigh

I live less than 50M from this proposed 'relief road' and have serious concerns regarding issues of Noise/Air pollution coupled with difficulties accessing/egressing this estate.

I am very concerned as to how this Inner relief Road will cause disruption to life and cause significant air and noise pollution to the houses which are located so close to this road. I know proposals previously were considered for a road further out of the town and this I think makes more sense that bringing traffic to the nearest estates to the town development causing unnecessary noise pollution and air pollution.

This will lead to serious issues in Sundays Well with regard to quality of sleep and indeed potential harm to safety for residents unless this is addressed.

I welcome proposals to remediate these issues identified and am not trying to prevent progress/development but rather to seek a better solution to the issues identified.

Regards,

Niamh Morrin
